perfected as a result of nearly
sixty years experience in helping
merchants sell their goods.

CURTIS-LEGER FIXTURE CO.

ESTABLISHED 1869

235 W. JACKSON BLVD.
CHICAGO, U. S. A.

When In Chicago Visit The Curtis-Leger Salesrooms

AT the corner of Jackson Blvd., and Franklin Street—right in the heart of Chicago's great wholesale district—are located the convenient Curtis-Leger Salesrooms.

Newly arranged and planned, they offer merchants the opportunity to make a practical selection of the display equipment they need. Not only is our complete line of display equipment on exhibit but there is a typical window in which actual trims can be made with selected fixtures to show exactly how they appear in windows. This takes the "guesswork" out of buying display equipment.

A visit will show you beautiful displays of Pierre Imans' Imported Wax Figures—a room full of headless forms—a wide range of period wood fixtures—our complete line of metal and glass fixtures—clothing racks and hangers—valances—flowers—show cases—lighting equipment—in fact, everything needed for the proper display of merchandise is here for you to choose.

And you'll receive courteous, intelligent service from Curtis-Leger salesmen. Each one is well versed in the art of window trimming and more than qualified to advise with you in the selection of your display equipment.

Sometime or other, during your stay in Chicago, you will be in our neighborhood. Make a note to visit the Curtis-Leger salesrooms on your next trip.

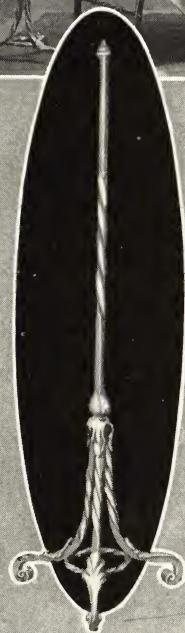

You'll Be More Than Welcome!

Wrought Iron Design

Notice how well this design blends with ladies' ready-to-wear. It gives a much desired exclusive appearance.

It is hard to find anything but praise for a design that shows shoes as attractively as does this wrought iron design.

Stores selling candy have at last found ideal fixtures in this new wrought iron design.

*The First Complete
Wrought Iron Design*
Curtis-Leger again steps forward
as the pioneer in window display
equipment with this new wrought
iron design. It is moderate in price
but extremely rich in appearance.
The finish is permanently beautiful and
there is nothing to break or warp. The tops
are interchangeable and especially well
designed.

Gown
and
Lingerie
Top
No. X07
Per Doz.
\$14.50

All tops shown on this page are interchangeable on wrought iron standards of any heights. This means a decided economy. Instead of buying the complete fixture when you want new or additional tops, it is necessary to buy **ONLY** the tops, which average about 20% of what the entire fixture would cost.

Arrive at the number and heights of standards necessary. (Prices at bottom of page under the illustrations of standards). Then add the cost of the tops wanted.

Franciscan Period

The Franciscan design, with its graceful lines, is especially appropriate for men's wear trims.

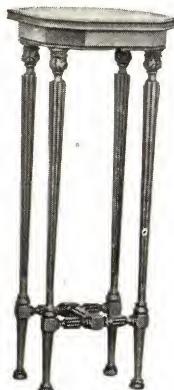

The straight lines of the Franciscan design permit the showing of many styles without giving a crowded appearance.

Notice how the practical use of this graceful chair gives an appearance of richness to the merchandise.

Octagonal Base Will Be Furnished

Beautiful Workmanship

The Franciscan Period Display Furniture can be rightfully termed the "last word" in wood workers' art.

The grace, richness and simplicity of the design makes it suitable for the display of any type of merchandise. It is, we believe, the finest line of display furniture that has ever been offered to discriminating display men.

All Parts Interchangeable

There is practically no limit to the countless combinations possible with the Franciscan design. All parts are interchangeable — various combinations can be built with the same parts.

This not only makes the Franciscan Line easy to trim with but represents a decided economy. By using the same parts in different combinations, you keep your windows always new and interesting.

No. 82-4 Top Block

No. 82-9 Upright

No. 82-2 Base Block

Above are shown the double base block, No. 82-2; top block No. 82-4 and upright No. 82-9 as they appear when disassembled.

The connections are all made of special metal fittings—easy to handle yet secure and durable.

This permits the frequent and easy interchanging of tops or other parts.

**Complete**

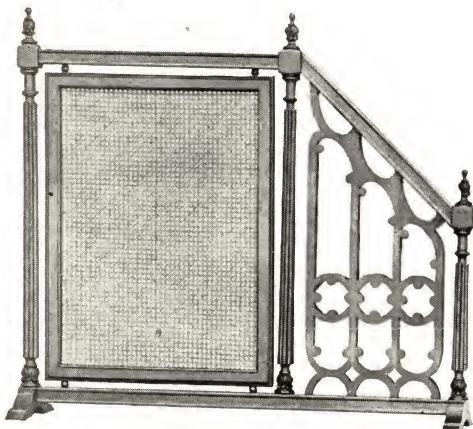

The highly developed art of present day window displays demands the furniture shown on this page. The dividing of merchandise and the building of unit trims can only be accomplished by the use of dividers, screens and large plateaus. High back chairs and settees are now used by leading display men for window settings. They realize the decided advantage of having only ONE design in a trim. Through the introduction of the items shown here, it is possible to have the same design throughout the trim, preserving uniformity and presenting a complete, perfect picture.

Finish

Antique walnut hand rubbed, (the same as applied on the finest furniture), has been adopted as standard finish for the Franciscan Design. We recommend it knowing that you will be more than satisfied.

Can also be had with gold or polychrome trimmings if so desired, but unless otherwise specified, will be furnished in dull antique walnut.

Economy

The interchanging of tops and parts means decided savings. With the Franciscan Design, you buy only the standards needed in your windows. Tops are purchased as you need them. If you wish more hat stands or shoe stands, it is not necessary to buy the entire stand BUT JUST THE TOP. And the same top can be used on any height standard.

You can have twice as many tops—greater flexibility in your displays—better trims, all at material savings—by adopting Curtis-Leger Fixtures.

**Solid Walnut**

Every item in the Franciscan I design is made of genuine American Walnut. The walnut is thoroughly dried in modern kilns. It is selected and matched with the greatest care both as to grain and color.

All ornamentations are hand carved. The same skill and attention given to the finest furniture is lavished on every item. Franciscan I design is practically hand made throughout.

It is the design we recommend as being the finest that can be produced

The FRANCISCAN PERIOD

Special Miniature Display Furniture

These miniature fixtures are important for the display of such dainty items as jewelry, hosiery and small wear apparel. They are used to advantage in display cases and windows where large fixtures are impractical.

Special Miniature Display Furniture

The same interchangeable features of the regular Franciscan Design are also incorporated in the Miniature Design. All items shown on this page are the result of combining the base, base block, top block or top with upright. Such combinations are practically without end.

There is an undeniable appeal in these miniature fixtures which transmits itself to the merchandise. A small article is hard to display on the regular size fixtures but can be effectively shown on these Miniature pieces.

Louis XVI Period

This trim shows how attractively the Louis XVI design displays men's wearing apparel.

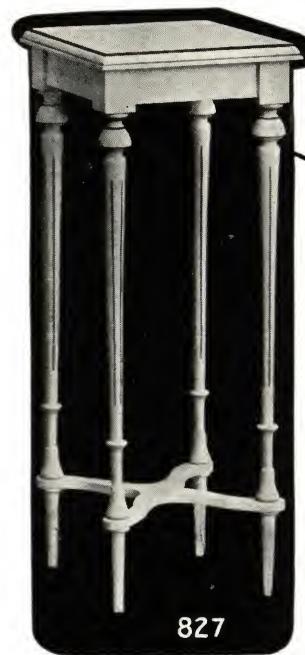

A Style Show Display using
Pierre Imans' Wax Figures.
Executed and designed by Mr.
C. S. Nichols, display manager
for R. H. White & Co., Boston.

Louis XVI has long been a favorite design for displaying shoes. Notice how effectively the big divider is used.

Cosmopolitan Period Shoe Group

THE purpose in illustrating group trims shown on the next four pages is to prove that well arranged window displays can be obtained without great expenditures and also to aid merchants in visualizing the number and sizes necessary for their windows.

The above shoe group, in the well-liked Cosmopolitan Design, contains 14 shoe stands, three tabourettes and four heel rests. This number of fixtures gives a medium trim for an average sized window.

These fixtures can be finished in either Circassian Walnut with gold trimmings, Ivory Enamel with Blue trimmings or American Walnut with gold trimmings. Please specify desired finish when ordering.

Following is an itemized list of fixtures as shown above:

DOUBLE SHOE STANDS		Each
4—699/82, (12" height) with tops	@ \$3.25
4—699/82, (18" height) with tops	@ 3.40

Colonial Fluted Shoe Group

THE Colonial Fluted Design finishes up beautifully in two-toned effects. It is a design that is suited for the display of any type merchandise.

The top s are adjustable so the shoes can be shown at any desired angle and form an unobtrusive, yet substantial background. This design is carried in stock for immediate shipment in the following two-toned enameled finishes: Medium Mahogany with gold trim; Circassian Walnut with black trim, and French Gray with blue trim.]

There are ten shoe stands, three tables and four heel rests in the above group. A practical unit for a medium trim in an average sized window.

Following is an itemized list of these fixtures:

SHOE STANDS	Each	Total

Colonial Period

Haberdashery Group

GOOD haberdashery and clothing trims are easy to make with the Colonial Period Design because this design has the rich and straight lines necessary to display men's clothing.

This trim has a variety of tops that permit a display of shirts, collars, ties, hats and box goods. A coat form can easily be substituted for the shirt form. It is a well balanced group that allows enough variety in trims to be in constant use. There are just enough fixtures for an average sized window.

In stock for immediate delivery in any of the following finishes: American Walnut, Circassian Walnut, Medium Mahogany, French Gray Enamel and Ivory Enamel.

Following is an itemized list of fixtures in this group:

William and Mary Period Shoe Group

ANY of these four unit displays can be used as a basis for ordering fixtures of other designs shown in this catalog.

The above shoe group is executed in the William and Mary Design. Its graceful and simple lines have made this one of our most popular designs. The adjustable metal shoe tops permit the tilting of footwear to any desired angle. This means versatile, practical and attractive displays. Finished in Circassian Walnut, Medium Mahogany or American Walnut.

In the above group there are 12 shoe stands, 3 tables and 4 heel rests, supplying just enough fixtures for a medium trim in an average sized window.

Following is an itemized list of fixtures in this set:

Nine Other Wood Fixture Designs

No. 100 Line
LOUIS XVI DESIGN

No. 700 Line
COLONIAL PLAIN
DESIGN

No. 'K' Line
KORINTHIAN
DESIGN

Each of these nine designs is as complete as the Franciscan, Colonial Fluted or Wrought Iron Designs shown on preceding pages. Similar standards, pedestals, plateaux, tables, dividers—can all be had in any of these designs. The dimensions are approximately the same.

The numbering system used is very simple. For instance, fixture Number 828 (See page 17) is a plateau in the Colonial Fluted Design. The first numeral (8) indicates the design. The last two numerals (28) indicate the article. Number 128 would be the same plateau in the Louis XVI Design. Number 328 would be the same plateau executed in the Tudor Design.

To enable you to make price comparisons on the various designs, we are enclosing a supplement in this catalog. This gives prices and sizes of every design. With this supplement it is an easy matter to list the fixtures needed in the designs you wish to consider and compare prices. Tops shown on the preceding pages are interchangeable and can be used with any design stands.

Our wood fixtures are furnished in all popular stain, enamel and two-tone finishes.

Eiffel Design

By using metal standards of the Eiffel Design together with wood tables, plateaux, etc., you have a combination that is exceedingly attractive and durable, yet economical. These trims show how well these designs harmonize.

This clever trim shows how Pierre Iman's Wax Figures were used in a drapery display executed by Mr. C. S. Nichols, display manager for R. H. White & Co., Boston.

The metal Eiffel Design standards are extensible. Some of the largest installations of display fixtures in this country are Curtis-Leger Eiffel Design.

Pierre Imans

IMPORTED WAX
MODELS

THE beauty of PIERE IMANS' Wax Figures has long been paramount and the standard of comparison for life-like beauty, grace and delicate coloring. This finest-of-all wax, mounted on CURTIS-LEGER made bodies gives to the American merchant what he has long been wanting—a wax figure with natural beauty that stands alone, unsupported, eliminating entirely the "dummy" appearance. (CURTIS-LEGER body mountings in many poses are shown on page 28).

Pierre Imans

IMPORTED WAX
MODELS

PIERRE IMANS gives his figures their unrivaled beauty through natural, delicate colorings, life-like postures and infinite attention to details. His figures stand supreme—the work of a master artist.

We are the authorized and exclusive distributors for PIERRE IMANS' Wax Figures in the United States and carry a large stock available for personal selection and immediate shipment.

A new booklet, showing many of PIERRE IMANS' most popular figures, has just been prepared. Send for your copy.

Body Mountings for Imans' Wax

IN order to provide body mountings with typical American poses, we have designed special bodies on which are fitted the wax busts and heads made by Pierre Imans. The poses of Curtis-Leger mountings are varied as shown above to fit in with the various settings in which wax figures are used.

This Curtis-Leger body mounting has all the qualifications of a good body mounting. It is of the right height—the physical dimensions in the hips and waist line are correct—it stands securely without braces or rods and is easily handled.

You will find these bodies as far superior to ordinary mountings as Pierre Imans' Wax is superior to all other wax.

The exclusive features of Curtis-Leger Mountings are:

1. They stand alone, rigid and firm without unsightly brace rods or supports of any kind.
2. The pose of the wax figure is adjusted with a swivel metal waist plate. After the head has been placed on the body, it is quickly adjusted as desired.
3. The patented heel adjustment automatically adjusts the rod in the heel so it conforms to the height of the shoe heel. With a slight turn of the screw placed in the calf, this heel rod is locked into position. **THE ADJUSTMENT IS EASILY MADE EVEN AFTER THE FIGURE IS FULLY DRESSED.**
4. Aside from the exclusive features above, there is true-to-life poise and shapeliness in every one of the many Curtis-Leger poses. Note the gracefully shaped limbs and slender ankles.
5. The full limb is finished in flesh color enamel.

Children's Body Mountings
For Pierre Imans' Wax

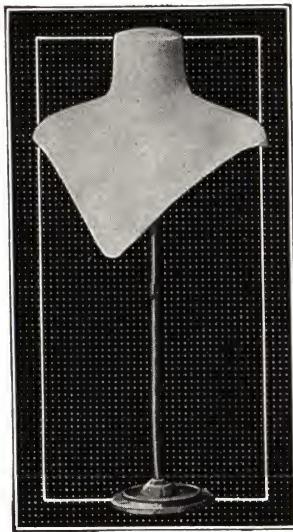

Waist, Sweater and Collarette Models

You will be more than pleased with the stylish appearance of your garments when displayed on these correctly designed models. Strongly made of paper maché, they have our washable, flesh-tint enamel finish. Be sure to specify size wanted when ordering.

The Perfect Costume Model

No. 2SN98

TO make GOOD models has always been a hobby with Curtis-Leger. Each season a close study of styles has been made and our models re-designed to conform to the changes.

This new model has been developed to the pinnacle of perfection. Designers of women's wearing apparel have approved and welcomed it with open arms. Every measurement is **RIGHT** to correctly display present day styles.

Notice how the front waistline is accentuated to give just the right hang to the garments. Notice also the careful modeling of the bust and back.

The modified cape at the shoulder points gives just the right drape to sleeve garments. For sleeveless and party dresses, also lingerie, you will find the cape shoulder shows off garments to much better advantage.

This model is recommended to merchants who insist on having their merchandise correctly displayed in every detail.

No. 2SN98—Cape Shoulder Costume Model. Mounted on 10½" brass shell high base. Made in 16 and 18 years; also sizes 34, 36 and 38. Price each..... **\$14.25**
This form can also be had with flat shoulders at the same price.

No. 2SN—Form only, price each..... **\$10.50**

C-L Standard Costume Model

THIS model is made with the same attention to detail as is the model shown on the preceding page. It also has been carefully developed and is absolutely correct for the proper display of present day styles.

The body is strongly made of paper mache with a washable, flesh-tint enameled finish at the bust. The body is smoothly covered with white tubular jersey. Extensible and revolves on standard.

It Is False Economy to Display New Styles on Old Models.

Buy New Models — It Pays

Children's Costume Model

The same care used in developing costume models is expended in making Curtis-Leger Children's Models. They are absolutely correct for current styles.

This model has a washable, flesh-tinted enameled bust with body covered with tubular white jersey. Extensible and revolves on standard. Made in the following sizes:

Children's Posed Leg Models

Boys' No. 19NU5

Girls' No. 9NU5

(Note the Natural and Child-like Poses of Limbs)

PROGRESSIVE merchants are carefully cultivating their juvenile departments. One of the best ways to attractively display children's garments is to use posed leg models. Notice how each size has a different pose so groups (as shown above) can be made into attractive displays.

These models are furnished with enameled busts and legs and the bodies are covered with white jersey. Boys' models have the straight or flat shoulders. Girls' models have the cape shoulders. They can be had in the following sizes:

Boys' Models No. 19NU5—Girls' Models No. 9NU5 (same price)

4 year size, each . . .	\$14.20	10 year size, each . . .	\$16.60
6 year size, each . . .	15.00	12 year size, each . . .	17.40
8 year size, each . . .	15.85	14 year size, each . . .	18.20

No. 19R2
Boys' Jersey Covered Form

All Jersey Covered Posed Leg Models

An inexpensive utility form, correctly modeled and well made. The body is covered with black jersey. The form can be had with iron shoes, as illustrated, or with iron feet on which real shoes can be used. Made in following sizes:

No. 19R2—4 year size, each . . .	\$ 9.50	No. 19R2—10 year size, each . . .	\$11.00
No. 19R2—6 year size, each . . .	10.00	No. 19R2—12 year size, each . . .	12.00
No. 19R2—8 year size, each . . .	10.50	No. 19R2—14 year size, each . . .	12.50
No. 19R1—Is the same form only with iron feet for leather shoes. Deduct \$0.25 per form from above prices.			
No. 19R2—Men's Posed Leg Model, Size 36, each . . .	\$16.00		
No. 19R1—Same with iron feet. Size 36, each . . .	15.50		

Ladies' Posed Leg Models

JUST as the enameled bust form mounted on a base has taken the place of all jersey covered forms, so is the posed leg model fast becoming the desirable model for displaying today's garments. Styles demand it.

Ladies' Posed Leg Models are continually in use for summer, winter, spring or fall displays. Suits, dresses, capes, coats, lingerie, fur wraps, bathing suits, in fact all kinds of ladies' wearing apparel show better when displayed on these forms.

The same automatic heel adjustment used on our wax mountings is furnished on these posed leg models. A self-adjusting heel pin

allows the posing of the figure after the shoes and stockings have been put on. A small screw offset in the calf of the leg, when turned slightly, releases the heel pin. This automatically seats itself in the heel of the shoe, forcing it to the floor.

The screw is then tightened and the form stands securely and rigidly without a brace.

Cape Shoulder

No. 9NU545—Cape shoulder, as illustrated. Sizes 16, 18, 34, 36 and 38.

Price, each \$30.00

Flat Shoulder

No. 18NU545—Same as above but with flat shoulder. Sizes 16, 18, 34, 36 and 38.

Price, each \$30.00

Correct for Today's Styles

A VARIETY of poses are shown on these two pages. When several posed leg forms are shown in the same window, it is well to vary the poses so the models can be shown in attractive settings.

Footwear and Hosiery play such an important part nowadays, that women's attire does not look complete without them. A great many stores are using these posed leg models instead of forms with wood or metal bases. Garments, when displayed on posed leg models, give a much more pleasing appearance.

The bodies are all strongly made of paper mache with the busts and legs finished in washable, flesh-tinted enamel. The busts are enameled extra low and the legs extra high

which is a decided advantage when displaying bathing suits, lingerie, etc.

The bodies are smoothly covered with tubular white jersey. These models are all extensible at the hips so they can be adjusted to the correct height for each garment.

STANDARDIZE ON CURTIS-LEGER MODELS AND KNOW YOUR MODELS ARE RIGHT FOR PRESENT DAY STYLES.

No. 18NU545—"Swagger Model"

These two character models with the swagger pose are especially suited for the present straight-lined styles.

They are of the same construction as our other posed leg models. Can also be had with cape shoulders.

New Cape Shoulder Coat Form

This shows how perfectly this new form displays present day styles.

This new coat form is so ideally designed for present day styles and those to come, that it was officially selected by the Style Committee of the International Association of Clothing Designers to exhibit their model coats at the Clothing Designers' Convention held in January 1925.

This form **MUST** be right to warrant the confidence of these experts.

Notice these various important new features:

1. The concave shoulders give a smooth, even hang to the front of the garments.
2. It is built up at the shoulders, insuring a graceful, natural hang to the sleeves. Also gives a natural arm pit.
3. The neck is tipped forward to give a snug fitting collar.
4. The shoulder blades are modeled full, following the natural lines of the human body.
5. The front waistline has just the right angle to give an even hang to the coat.

Immediate Shipment

Miscellaneous Display Equipment

For Safely Displaying Bags and Novelty Jewelry

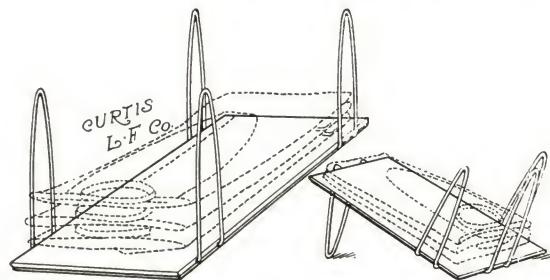

You are interested in displaying fancy bags and novelty jewelry but in doing so, there is a certain amount of so-called leakage.

With the above safety stand your stock is protected yet at the same time can easily be inspected and displayed on your counters.

The top bar is released by pressing a trigger or button near the bottom. With the top bar raised, it is easy to hang on the articles to be displayed.

The safety stand is finished in a rich, statuary bronze finish and has a heavy weighted, felt covered base. Twenty four inches high. The display arm measures eighteen inches. A coil card holder is furnished, making this a thoroughly practical and well built display stand.

No. 8500—Price each.....\$10.00

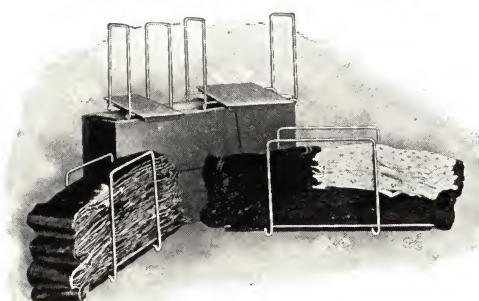

Shirt Display Rack with polished oak or birch mahogany base. Adjustable monumental bronze uprights.

No. 6711—For gloves and hose. Per dozen. 7.20

An Improved Turntable

The "TURNABOUT". Operated for Less Than 2 Cents a Day

The TURNABOUT is a ruggedly constructed, electric motor driven, revolving display stand, built to carry evenly distributed loads weighing up to two hundred pounds. It is thirteen and one-half inches in diameter and eight and one-half inches high, with a five - ply three - quarter inch laminated wooden top eighteen inches in diameter. This top is finished in mahogany and is fastened to a cast sub-top in a manner such that larger platforms can be substituted if desired.

A General Electric Co. guaranteed motor furnishes the power for the TURNABOUT and the speed reduction is obtained by means of heavy machine cut gears enclosed in a cast, oil-tight case.

The motor, gear case, and base is entirely covered by a twenty-gauge spun steel housing finished a dull black. The TURNABOUT is furnished completely wired with a six-foot reinforced cord and a separable Bakelite plug. A convenient toggle switch mounted on the side of the steel housing makes it possible to start and stop the motor without disconnecting the plug.

TURNABOUTS are furnished for either 110 volt Direct Current or 110 volt 60 cycle Alternating Current. When ordering state clearly the type and voltage of the circuit on which the machine is to be operated.

With a power rate of ten cents per kilowatt-hour the cost of operation of the TURNABOUT is less than two cents per day.

Floor Racks for Ready-to-Wear Departments

The Sunflower Skirt Rack is a REAL space saver. It holds fifty skirts, yet occupies less than four square feet of floor space.

There are no hangers to fuss with. The skirts are easily slipped between non-corrosive spring steel loops, where they are held firmly. The head revolves so all garments are accessible.

The Sunflower Rack is 48 inches high with a head 26 inches in diameter. Finished in black enamel. Tripod base moves easily on large nickeled domes. Equipped with card holder.

No. 6608—Price, each.....\$24.00

Shipped in Compact Carton

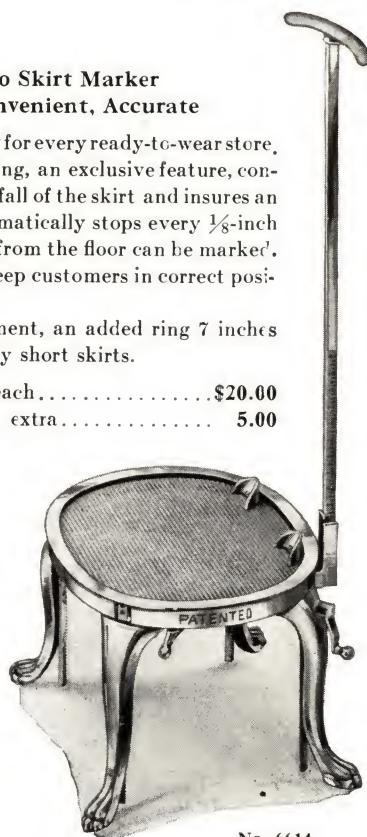

The Sunflower Skirt Rack "knocks down" into the three or four parts shown here. Securely packed in one light carton. The rack is easily assembled and, when not in use, can again be "knocked down" and safely stored away.

Chicago Skirt Marker Quick, Convenient, Accurate

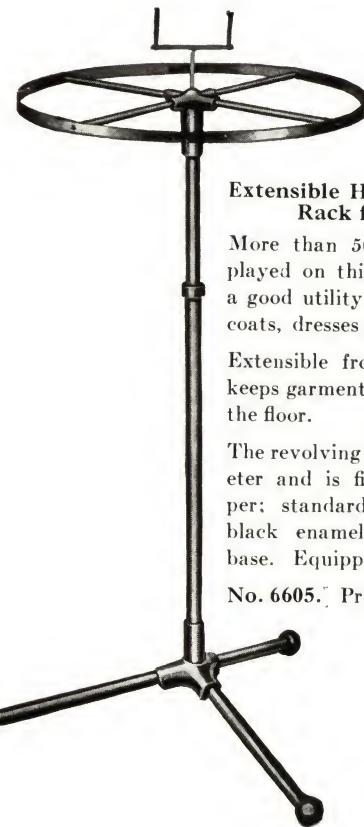

An absolute necessity for every ready-to-wear store. The oval marking ring, an exclusive feature, conforms to the natural fall of the skirt and insures an even hang. It automatically stops every $\frac{1}{8}$ -inch and skirts 10 inches from the floor can be marked. Bar and toe pieces keep customers in correct position.

The misses' attachment, an added ring 7 inches high, is used for very short skirts.

Curtis-Morgan Single and

Curtis-Morgan Extension Rack

The Curtis-Morgan Extension Rack is a good, practical means for the quick handling of men's and boys' clothing. It is attached to the ceiling of a clothing cabinet and, with a slight pull, carries the garments entirely out of the cabinet, ready for selection.

The rack itself consists of a strong piece of steel tubing attached to two interlocking channels. The channels are of very heavy gauge and run on roller bearings. The rack operates with the greatest of ease.

Build Your Own Cabinets—Blue Prints Furnished

By using the C-M Rack, you can have your cabinets built by your local cabinet maker or carpenter. In this way, you realize a saving and can also have the cabinets built to your specific requirements. We will furnish blue prints for cabinets free of charge.

C-M Racks can be furnished in the following standard lengths. The prices on special lengths will be the same as the next largest standard size. Finished in oxidized copper.

	Less than 6	6 or over	12 or over	25 or over
42-inch rack, each	\$11.50	\$11.05	\$10.80	\$10.60
48-inch rack, each	12.30	11.90	11.70	11.50
54-inch rack, each	13.60	13.15	12.90	12.75

C-M Door Latch

C-M Flush Door Latch

This latch sets flush with the door and has no protruding knobs to catch on and tear the garments. Simple to install and reliable in its action.

Per dozen \$10.80

C-M Double Deck

The double C-M Rack accommodates two tiers of clothing, yet occupies but little more space than a single rack. Easy to operate even when fully loaded.

	Less than 6	6 or over	12 or over	25 or over
42-inch rack, each	\$15.25	\$14.80	\$14.45	\$14.20
48-inch rack, each	16.25	16.05	15.75	15.50

Double Extension Racks

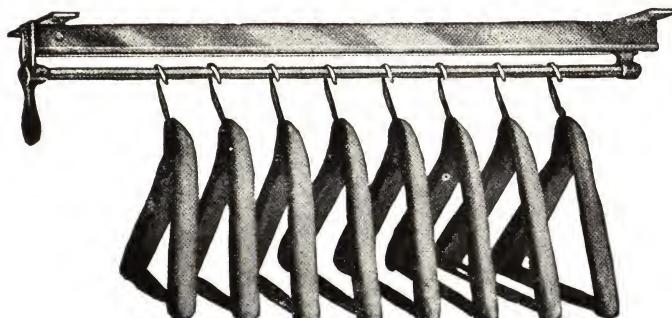

C-M Lower Rack Support

The C-M Lower Rack Support is used for suspending the front end of the lower rack in cabinets where two racks, hung independently of each other, are used. It is a very simple and effective device, easily installed and constructed of the best material.

C-M Lower Rack Support, each.. \$3.30

Lighter Extension Racks

No. 10. Twentieth Century Rack

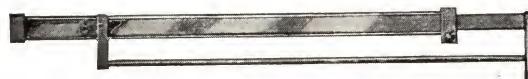

No. 12—Yukon Rack made with roller bearings and finished in nickel. Comes in following sizes:

Special Design Show Window Valances

A special valance with side drapes makes an exceedingly rich looking combination. The drapes should be made of the same material as the valance with the same fringe and color scheme.

The valance shown above is **No. 861** and is one of our most popular designs. It has a body made of Paulist cloth and the Sunfast felt applique is a dark brown. The two-tone brown and ecru fringe is 3 1/2 inches deep. Per foot, **\$1.75** (Letters extra).

Side drapes shown with this valance are **No. 712**. They are made of Paulist cloth to match the valance. Each set of drapes is made special to fit the window. Send us the measurements of your window and we will gladly quote.

No. 755

The body of this valance is Mission cloth. The applique is green with black outlines. Initial is in gold with white outline. 2-inch mercerized fringe. Per foot **\$2.20** (Letter extra)

No. 866

As shown, this valance has dark tan applique outlined in gold. The body is Mission cloth. It has 2-inch mercerized bullion fringe. Brown tassels. Initials are same color as applique.

Per foot **\$2.55** (Monogram extra)

No. SG

This valance may be had with body made of either Monks, Paulist or Rep cloth with leatherette applique in either gold, brown, blue or black. It has a 2-inch ecru fringe.

Per foot **\$2.25** (Monogram extra)

NEW!

*Color Lighting in the
Daytime*

The new big idea for artificial
illumination by means of

X-Ray Show Window Flood Light

with Center Spot Beam

Complete

\$13.50

Net

Furnished complete as
shown, with swivel supporting
base, socket holder, No.
800 Reflector, color frame
and four pieces of colored
gelatin—red, blue, green
and amber. Height over all
11 inches.

Beautiful, rich displays with attractive, stage-like lighting effects—give your show windows attention value. The new X-Ray Show Window Flood Light with Center Spot Beams gives just such striking, theatrical effects. While this unit illuminates the entire window, the center spot beam concentrates light and attention on certain selected articles. It highlights without leaving any sharp ring or cut-off of light.

Real, winning effects are obtained by using the red, blue, amber and green gelatine color screens which go with this unit. A warm tint of color is given to the entire window while the center spot beam envelops the featured merchandise with a strong dash of color. Several spot lights combined, give almost any color.

No. 33. Window Flood Light Complete, Net **\$13.50**
Complete but without color frame and gelatins, Net **10.80**

Test Proves That Correct Lighting Pays

Tests were made recently in Cleveland on three different nights to determine whether additional lighting in show windows increased their power to attract. During the tests, about 10,000 people passed.

The average show window illumination is approximately 15 foot candles. By increasing this to 100 foot candles in the show windows tested, the number of people who were attracted was

increased 42%. By increasing the illumination from 15 foot candles to 40 foot candles, an increase of 24% was noticed.

The increased value of the window paid many times the cost of the additional current.

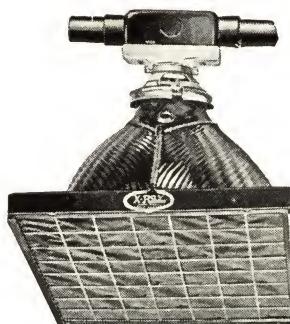

Send a sketch of your windows and let us show how correct lighting will more than pay for itself in your windows.
